Dear Sir:

Allow me to thank you for the Twin-Audio Transformer that was presented to me by Mr. Eugene Wulff. I doubt whether I deserve the prize as I didn't do very much to secure members for the Milwaukee Radio Amateur Club. However I surely appreciate receiving the transformer and hope that I can get more of the fellows interested in joining the club so that it will be well represented in all parts of the country and world.

Thanking you again I remain

Sincerely yours
